# | Sky ERP GST Plus

Everex Infotech is customer-centric and aims to provide technology with comprehensive solutions to simplify your IT environment, overcome your business challenges, increase your sales, maximize returns, and achieve your goals.

We at Everex Infotech, endeavour to provide a cost-effective delivery methodology while focusing on quality standards, exceeding user expectations and creating an extraordinary business environment for both employees and end customers.

We help industries in managing inventory, order processing, jobwork and document management in a structured manner through an easy and simple mechanism called Sky ERP GST Plus.

Sky ERP GST Plus is a comprehensive web based software that lets you gain better control in business operations with full GST compliance. Built on four modules Inventory Management, Order Processing, Jobwork and document management, the software is designed to reduce overheads, improve efficiency and manage non-core business functions.

It enables you to manage orders and inventory. With powerful inventory control, order processing, jobwork and document management modules, you can now optimize your inventory and order management, right from purchase to sales, to GST returns.

# Jobwork Module

“Jobwork” means processing or working upon of raw materials or semi-finished goods supplied to the jobworker/ so as to complete a part or whole of the process resulting in the manufacture or finishing of an article or any operation which is essential for the aforesaid process.

There are two ways of jobwork

1. Inward - They are specialized jobworkers , they only undertake jobwork .
2. Outward - They assign the jobwork to a specialized jobworker .It is done outside their industry premises.

## Jobwork functionality and reports

- ◇ Work Order Register
- ◇ Dispatch Challan Register
- ◇ Jobwork Invoice Register
- ◇ Purchase Order Vs Issue
- ◇ Purchase Order Vs Receipt
- ◇ Schedule Vs Receipt

# | Document Management Module

A document management Module (DMS) is a system (based on computer programs in the case of the management of digital documents) used to track, manage and store documents and reduce paper. Most are capable of keeping a record of the various versions created and modified by different users (history tracking).

## Benefits of Document Management

### Simplicity and Scalability

ERP as a document management solution gives the company a simple way to keep your document in one place and it is an easy process to access the documents whenever you need it. An ERP system is easily scalable

### Save Money and Save time

Document management functionality, an ERP maintains the business process while reducing the paperwork and it is a rule-based workflow hence saves precious money and time

### Security

Sky ERP GST Plus for Small and Medium businesses provides security in terms of employee mapping, password protection and user rights in its document management module

# | GSTN Compliance

- |              |           |                           |

# Conclusion

The difference between ordinary and excellent is miniscule. Excellence is not a singular act, but a habit. You become what you repeatedly do. By embedding our product with advantages over other products, we have made it a habit to present our customers with only the best. Sky ERP GST Plus is no exception to this work philosophy of ours. It is powered by numerous advantages that make it significant for the industry.

- ◇ Reducing overhead
- ◇ Getting access to specialized skills
- ◇ Improving speed and service
- ◇ Auto posting of data to registers
- ◇ Being reliable and innovative
- ◇ Avoiding capital expenses
- ◇ Saving on manpower and training costs
- ◇ Increasing customer satisfaction
- ◇ Improving efficiency
- ◇ Avoiding the cost of chasing technology
- ◇ Off-loading non-core functions
- ◇ Reducing operating costs
